Appendix B: Care & Maintenance

1. General Handling

- The device is designed for outdoor use but should not be subjected to excessive impact or vandalism.
- Avoid pressing the touchscreen or buttons with sharp or hard objects.
- Do not attempt to dismantle or modify the unit, as this may void warranty and damage internal components.

2. Cleaning Instructions

To ensure optimal performance and appearance, regular cleaning is recommended:

- Use a soft microfiber cloth to wipe the surface.
- For stubborn dirt, lightly dampen the cloth with clean water or mild soap solution.
- Gently wipe the camera lens area to maintain clear video quality.

Do NOT:

- Use abrasive materials (e.g. steel wool, rough sponges).
- Use harsh chemicals such as alcohol, ammonia, or solvents.
- Spray water or cleaning solution directly onto the device.

3. Software & System

- Do not reset or reconfigure the device unless instructed by system integrator.
- For access control or intercom issues, contact your system administrator or maintenance provider.

4. Power & Safety

- In case of malfunction (e.g. no power, abnormal heat, or noise), isolate power and inform maintenance personnel immediately.

5. Warranty & Support

- Any unauthorized repair or modification will void the warranty.
- For servicing, always contact authorized personnel or the system integrator.
